**Transport to Hospital**

The following guidelines will help you identify the most appropriate service to use:

Could the journey be made by some form of public transport (taxi, train, bus), or with help from a relative or friend?

If not, could the Patient Transport Service provide the transport? If you are not sure whether you are eligible to use this service, then ask your GP, dentist, or consultant who arranges this transport.

If you are attending hospital for an appointment and you are on a ‘low income’ or on ‘income support’ then you may be able to claim the cost of your transport. Check with the hospital before travelling if you are not sure whether you are eligible or ask at the hospital reception desk for more information.

Portsmouth City Council endeavours to insure that all information contained in this leaflet is accurate at time of going to press. However, the Council cannot be held responsible for any inaccuracies.
This guide includes all three major city hospitals and how to get there by Public Transport.

For ease of reference, the hospital pages are colour coded.

**Queen Alexandra Hospital**

**St.Mary’s Hospital**

**St.James Hospital**

Each of the hospitals have good transport links within Portsmouth and to the surrounding areas. Connections are available and easy to make. This guide explains this.

**So, how do I start?**

Choose the hospital you need to travel to. There is a separate plan of the bus routes and stops for each hospital. The next pages explain which buses to use.

You can see how often the buses run, and finally for more information contact telephone numbers for bus enquiries are provided.
